ANTI-FRAGILE PLAYER WITH STRONG VISIBILITY ON 2023

MARKET ENVIRONMENT

REDUCED GDP GROWTH EXPECTATIONS

PERSISTENT INFLATION

MARKET VOLATILITY

MITIGATING FACTORS

- Businesses positioned on structurally growing markets
- Diversified business - new services to be introduced with Polis
- Mainly exposed to clients' non-discretionary spending
- Corporate energy costs fully hedged for 2023
- Labour agreement in place until end of 2023
- Strong track record of flexible cost management
- Loyal customers - positive net flows in any market condition
- Sound capital and liquidity - stabilized SII & prudent ALM
- 93% of TFAs not exposed to market

Historically increasing deposits also in highly volatile market conditions

INSURANCE: GROWTH OF VOLUMES & MARGINS IN LIFE AND PROTECTION 4

REMITTANCE RATIO OF POSTE VITA TO BE INCREASED IN 2023

2023 growth drivers

- Life positive net flows and product mix driving higher profitability - investment yields increasing
- Protection business profitable growth to continue leveraging on a still low penetration on group large and loyal customer base, helped by the launch of an integrated investment and protection advisory and sales platform
- IFRS17 to improve visibility on underlying value of the insurance business, with 11bn CSM and 12bn comprehensive equity arising from transition and neutral or slightly positive impact on P&L
- c.1bn gross SCR mass lapse insurance transaction ahead of internal model implementation
- High and less volatile solvency ratio, at 253%, allows for an increased remittance to the parent company

2023 HIGHLIGHTS

- IFRS17 transition impact on P&L expected neutral / slightly positive
- Under IFRS17 upfront fees will not be booked as Insurance Services revenues with no impact on EBIT and net income
- Higher volumes and margins to drive 2023 underlying profitability
- Continued profitable growth of P&C business
- Proposed Net Insurance acquisition to further boost Protection business

1. Includes Private Pension Plan (PPP); 2. Includes Poste Insurance Broker (PIB) net of claims, Poste Welfare Servizi (PWS) restated since 2021; 3. Net revenues defined as CSM release, Time Value of Minimum Guarantees (TVOG) and risk adjustment, net of release of expected expenses and claims; 4. Since 2022 lapse rate is calculated as surrenders divided by average reserves. 2017-2021 data have been restated accordingly in line with market practice; 5. Net Profit 2018 includes 385m DTAs; 6. Net of reinsurance. 2023 COR defined as insurance expenses, net reinsurance expenses, other technical income and expenses, not directly attributable expenses divided by gross insurance revenues.

HIGHLIGHTS

- Solvency II ratio at 253%, net of 3pp foreseeable dividend to be paid to the parent (9pp. In FY-22 equal to c.450m) - proposal to increase payout to up to 75% from 2023
- Economic variances: longer duration liabilities and lower corporate credit spread more than offsetting BTP swap increase
- Positive capital generation from new business and in force portfolio
- Managerial actions: lapse risk partially transferred to top 5 global reinsurers resulting in +30pp, thanks to 1bn gross SCR reduction

TRANSITION TO IFRS 17: IMPROVED VISIBILITY ON PROFIT EMERGENCE

CSM OF 11BN REFLECTING PROFITABILITY OF IN-FORCE BUSINESS - EXPECTED TO GROW SUSTAINABLY OVER TIME

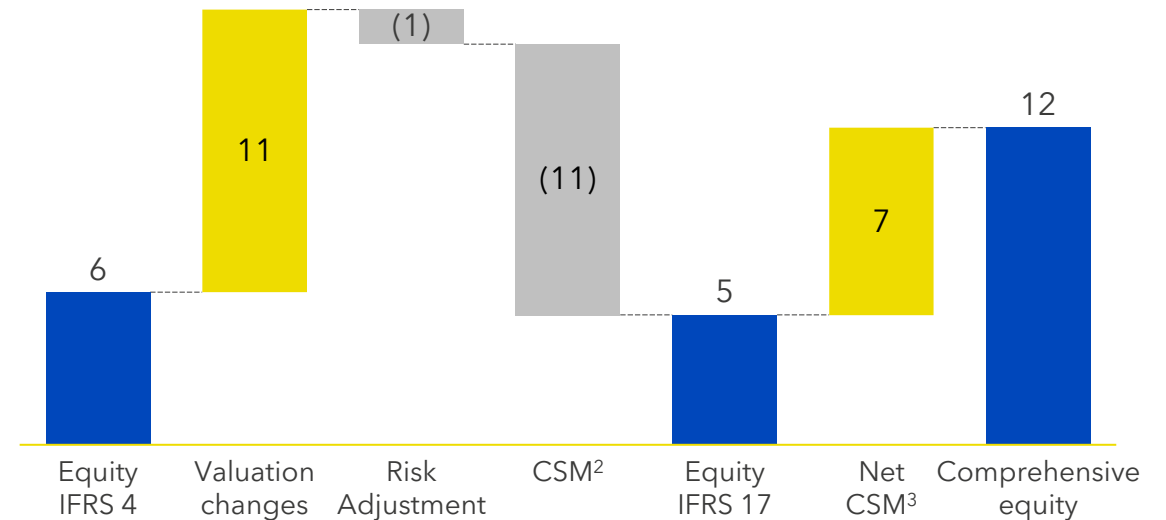

€bn unless otherwise stated

Highlights

- No impact on cash and capital generation, dividends and Solvency II
- Change in shareholders' equity on transition (c.1bn reduction) driven by discounting of long-term liabilities and recognition of CSM and risk adjustment
- Value of investments (assets) unchanged, already accounted at fair value - Poste Italiane already adopting IFRS 9 since 2018
- Group CSM of 11bn on transition, reflecting profitability of in-force business mainly related to life business
- Release ratio of CSM expected to be in the range of 6-8%
- IFRS 17 to have a neutral or slightly positive impact on P&L
